

“COMBAT READY” FIREFIGHTING

FIREGROUND PROVEN TIPS & TECHNIQUES

Presented by Traditions Training, LLC ~ “Experience-Based Firefighter Training”

www.TraditionsTraining.com

This unique interactive seminar will cover a variety of topics affecting today’s firefighters. We will cover operational issues with an emphasis on real-world firefighting tricks and techniques. Some of the topics discussed will include:

- ❖ **“Fire Below! Tactics for Basement Fires”** – Delayed recognition and limited access make basement fires among the most dangerous fires for firefighters. This class will present techniques for sizing up and attacking basement fires, including considerations for the truck and engine companies and the incident commander.
- ❖ **“Tradition & Morale in the Firehouse”** – An interactive discussion on firehouse life & morale as well as the mindset of today’s firefighter.
- ❖ **“Fires in Garden Apartments”** – This common fire presents many issues and challenges that must be addressed simultaneously. We will discuss these issues using scenario-based case studies covering engine company, truck company, and incident command concerns.
- ❖ **“The Combat-Ready Firefighter”** – Preparing for optimum performance at any incident - how you can get your mind and equipment “in the zone” to be as effective and efficient as possible at your next fire.

About the Instructors:

Nick Martin has 15-years of firefighting experience and is with the District of Columbia Fire Department assigned to Truck Company 6 and is also a firefighter with the Kentland Vol. Fire Department in PG County, Maryland. He is an author for Fire Engineering Magazine and will be presenting at FDIC 2010.

Doug Mitchell is presently a lieutenant with the FDNY assigned to the 7th Division in the Bronx. With 17-years in the fire service he was previously a firefighter in Fairfax County, VA and will also be presenting at FDIC 2010.
